Re: Letter of Reference for Michelle Henderson

Michelle was in my employ from March 2003 to July 5, 2005. Michelle has excellent qualities to bring to a work environment. She is dependable, creative and works well with others. Her strengths are computer and graphic design. Her office skills are good and people skills excellent. My patients enjoyed working with her.

Please feel free to contact me for further discussion about considering Ms. Henderson as a potential employee for your company.
